INNOVA: ONE OF THE 10 BEST STANDS AT
SALONE DEL MOBILE IN MILAN

We are proud to announce that our inflatable stand has been awarded as one of the 10 best stands at the Salone del Mobile in Milan! A project that combines innovation, sustainability, freshness, and creativity, offering a new design perspective within a space that captured everyone's attention. Another step towards excellence, where every element tells the story of our passion for the future of design.

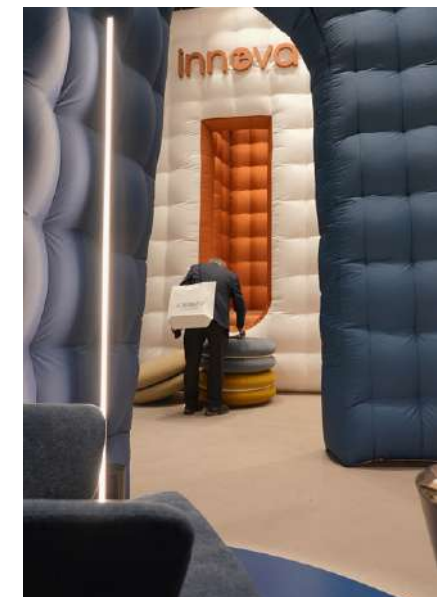

INNOVA: TRA I 10 BEST STAND AL SALONE
DEL MOBILE DI MILANO

Siamo orgogliosi di annunciare che il nostro stand gonfiabile è stato premiato tra i 10 migliori stand al Salone del Mobile di Milano! Un progetto che unisce innovazione, ecosostenibilità, freschezza e creatività, portando una nuova visione di design all'interno di uno spazio che ha conquistato l'attenzione di tutti. Un altro passo verso l'eccellenza, dove ogni elemento racconta la nostra passione per il futuro del design.

CRABBY: ELEGANCE, FUNCTIONALITY, AND SUSTAINABILITY

Crabby won the Design Award by Archiproducts, thanks to its combination of innovative design and practicality. Its unique removable cover allows for easy updates to its appearance, making it versatile and adaptable to any space.

Why is Crabby considered a sustainable product? We focused on simplicity, designing elements that are easy to separate and adopting a construction approach that eliminates the use of glues and fasteners, reducing the number of components and enhancing the product's recyclability, making it more eco-friendly.

CRABBY: ELEGANZA, FUNZIONALITÀ E SOSTENIBILITÀ

Crabby ha vinto il Design Award di Archiproducts, grazie alla sua combinazione di design innovativo e praticità. La sua sfoderabilità unica permette di rinnovare facilmente il suo aspetto, rendendola versatile e adattabile a ogni spazio.

Perché Crabby viene considerato un prodotto sostenibile? Abbiamo mirato alla semplicità, progettando elementi facilmente separabili e adottando un approccio costruttivo che elimina l'uso di colle e fissanti, riducendo così il numero di componenti e migliorando la riciclabilità del prodotto, rendendolo più rispettoso dell'ambiente.
